Flight Simulator README

Controls

- **Pitch**: W/S
- **Yaw**: A/D
- **Roll**: Q/E
- **Throttle Up**: Up Arrow Key
- **Throttle Down**: Down Arrow Key

Deployment

- **AI Companion**: SPACE
- **View Change**: Page Up/Page Down

About

This simulator features a physics-based control system and an AI companion with state machine logic. It's a scalable project with a focus on modularity and adaptability. Enjoy the casual demo and look forward to future updates.

Note

Remember to hit SPACEBAR to deploy the AI companion. Collect coins and explore the skies without the worry of damage—for now.
